

PELAGIC GOES TO COMMUNITY BOATING SATURDAY, MAY 14TH, 2011

Join your fellow Pelagians and members of Community Boating (CBI) for our Mercury sailboat race (formerly known as the Pelagic dinghy race) and food fest. CBI is providing all the sailboats, equipment, race committee, instruction, race awards, and the food fest in their expanded and updated facility Two per boat – come as skipper/crew team or as an individual to be paired up on the day of the race.

Community Boating serves the metropolitan Boston Community by enhancing the overall quality of city life. The scope of the organization encompasses a diverse population. In 2009 they had 2,432 juniors, 3,250 adults, 417 universal access sailors, and 278 high school sailors from over 30 towns and communities in the metropolitan Boston area. Many of their members are residents of Boston and its surrounding neighborhoods. On the larger scale though, thousands of people worldwide have learned how to sail at CBI. For more information on Community Boating, go to <http://www.community-boating.org/>

Your contribution of \$35 per person covers the cost of all sailing activities, food fest, as well as a generous donation to the CB Program for Universal Access.
Come join in the fun!!!
